SPORT NOTES

The team motored to Coult's Friday to meet the Browning Hoop artists in a return game. It will be remembered that Browning won in the first encounter by three points. And though they are the only team that have defeated the R. H. S. they won again, and by three points. We wonder if, before the game, the medicine man chanted three spells while the players sprained three times under each basket.

However everyone had a good time and enjoyed the romantic mysteries afloat. (We don't mean the medicine men.)

Bruce, we hear, became ill, but we understand that this was after the fun was all over, so he didn't miss every thing.

THE GAME

First Quarter: R.H.S. saw Browning pile up several good points.

Second Quarter: R.H.S. saw Browning pile up several good points.

At half time: R.H.S. were told by their coach that they had just twenty minutes in which to win the game—not twenty weeks.

Third Quarter: Browning got a 21 point lead.

Fourth Quarter: R.H.S. played their own style of ball and when the whistle blew the score was 42-39.

The team will go to Calgary Thursday (we are writing on Tuesday) in their official capacity of Champions of Southern Alberta. They will play a sudden-death game with the Victoria High Saturday afternoon for the Championship of the Province. They will be in the north at the time of the Tournament, so they will see lots of basket ball. We are sure that the good wishes of the town go with our team.

Watch for news of the Prom. The Juniors promise a big time.

News Notes

Solon Low was in Cardston over the week-end.

The Raymond "Idlers" maintained their perfect record on Monday evening when they beat the Cardston "Maple Leafs" to the score of 36-55.

Mr. and Mrs. H. S. Taylor and Mr. and Mrs. Ross R. May of Magrath, attended the showing of "Showbeat" at the Capitol on Monday evening.

QUOTA LA W FOR CANADIANS REVISED

Washington, March 12—(Special to the Recorder) — Representative Johnson, Chairman of the House Committee on Immigration and Naturalization, has introduced a revision of his bill to place the countries of this hemisphere on a quota basis. The new bill provides in the case of Canada and Newfoundland, Mexico and Cuba, that the quotas shall be four times the number of American citizens departing thereto for permanent residence during the fiscal year ended June 30, 1929, and, in the case of the other countries, the number of immigration visas issued during the fiscal year ended June 30, 1929, to immigrants born in such country, with a minimum quota of 100 for each nationality.

The bill further provides that notwithstanding the provisions just quoted the quota for Mexico for the fiscal year beginning July 1, 1930 shall be 11,021, and for the fiscal year beginning July 1, 1931 the Mexican quota shall be 6961.

The quota allotted to the various countries is as follows: Argentina, 375; Bolivia 100; Brazil 5,700; Canada and Newfoundland, 67,556; Chile, 230; Colombia, 543; Costa Rica, 163; Dominican Republic, 240; Cuba, 860; Ecuador, 129; El Salvador, 188; Guatemala, 236; Haiti, 100; Honduras, 208; Mexico, 2,900; Nicaragua, 278; Venezuela, 586; Panama, 355; Paraguay, 100; Peru, 305; Uruguay, 100.

New World dependencies continue to draw their quotas from their Old World mother countries, but are limited by a provision of the Johnson bill to one per cent of the quotas already established for the mother countries.

Normalites Lose To Idlers

DEMOI NILSSON VICTIM OF PAINFUL ACCIDENT

DeMoi, the 14 year old son of Mr. and Mrs. Bert Nilsson, is recovering after a very nasty accident which occurred last Sunday while he was playing in the new Second Ward Chapel.

He was playing on the second floor of the building, and in some manner slipped and fell to the ground striking his head a glancing blow on a wheelbarrow, causing a fracture in the high forehead, and taking the scalp completely off nearly half his head. He was alone when the accident occurred and no one knows just when it happened.

When he regained consciousness he told a chum what had happened and he was taken to Mr. Cope, who rendered first aid, Dr. Leech being out of town, and Dr. Fowler of Magrath phoned for.

It took the Doctor some time to get the wound cleaned up, and then it required 21 stitches to close the wound.

The boy is getting along as well as can be expected, and it is only the fact that he hit the steel wheelbarrow a glancing blow, instead of directly, that he was not instantly killed.

STRONG ROLE HAS CAROL LOMBARD IN "THE RACKETEER"

PLAYS OPPOSITE ARMSTRONG STAR OF DRAMATIC PICTURE OF UNDERWORLD

Carol Lombard, charming Pathe leading woman, has been cast opposite Robert Armstrong in "The Racketeer," one of the biggest all-dialogue productions on the current Pathe schedule, which will be on view at the Capitol theatre on Monday next.

"The Racketeer," an original story by Paul Gangelin, was directed by Howard Higgin and went into production of "Oh, Yeah!" in which Armstrong is featured and in which James Gleason has one of the leading parts. This is the first time the two have been together since their notable stage triumph in "Is Zat So."

The Opera House was filled to capacity on Saturday night, March 8, when the Calgary Normal School and the Raymond "Idlers" met in the first game of the Provincial playoffs.

Led by Welbura VanOrman and Dean Rolfsen, playing around B. O. Miller, long centre man, the Normal School played a good game but were forced to take a number of their shots at long range and they failed to count. Dribbling was tried by the Normalites but this failed, and on three occasions during the game, they called time out to talk things over.

Raymond played a hard checking game all night and in spite of repeated attempts at the hemp in the first half they didn't show their usual form and the period ended 17-21, Raymond.

SECOND PERIOD

When the teams came back for the second period something had happened. The "Idlers" played more aggressive ball right from the start and the score commenced to climb.

Kenney, O'Brien and Kirkham were showing a sample of team work that Calgary just could not stop and several times the ball was tipped off and through the net in one, two, three, fashion; Kenney to O'Brien to Kirkham ad through, without a Calgary player touching it. This is no reflection on the visitors playing. They played good consistent ball, but on these spectacular breaks, the "Idlers" forward line was just too fast for them to follow.

Dean Rolfsen for the Normal School and "Pokey" Hawkins for the "Idlers" both filled up their quota of personals and were taken off at the same time, Cahoon replacing Rolfsen, and Haggen taking Pokey's place.

STAKE M. I. A. CONTESTS

All the Ward Mutuals are anxiously and untiringly at work now on the M.I.A. contest work. Contests will be held in Drama, Dancing, "M" Men and Gleaner Girls Public Speaking, Retold Story, Organ Solo, Orchestra Selection, Double Mixed Quartette, "M" Men's and Gleaner Girls Chorus. The Taylor Stake Finals will take place March 27 and 28 in the Stake House for everything except Drama and Dancing which will be held March 29th in the Opera House.

THREE SONGS ARE HEARD IN ROGERS-CARROLL FILM

Three song hits, "Illusion," "Levee Love" and "Revolutionary Rhythm" provide the melody background for Paramounts all-talking picture of the life of trouper who move in the circles of high society, "Illusion." It comes to the Capitol Friday and Saturday March 14 and 15.

Fred Coots, Larry Spier, and Sam Coslow wrote the music for the number "Illusion." Sam Coslow penned the lyrics.

Both the lyrics and music of "Levee Love" and "Revolutionary Rhythm" were written by Fred Coots, Lou Davis, and Larry Spier in collaboration.

Charles (Buddy) Rogers and Nancy Carroll, the lovable young pair who performed so harmoniously in "Close Harmony" sing the three numbers in the new picture.

The Week in the Alberta Legislature

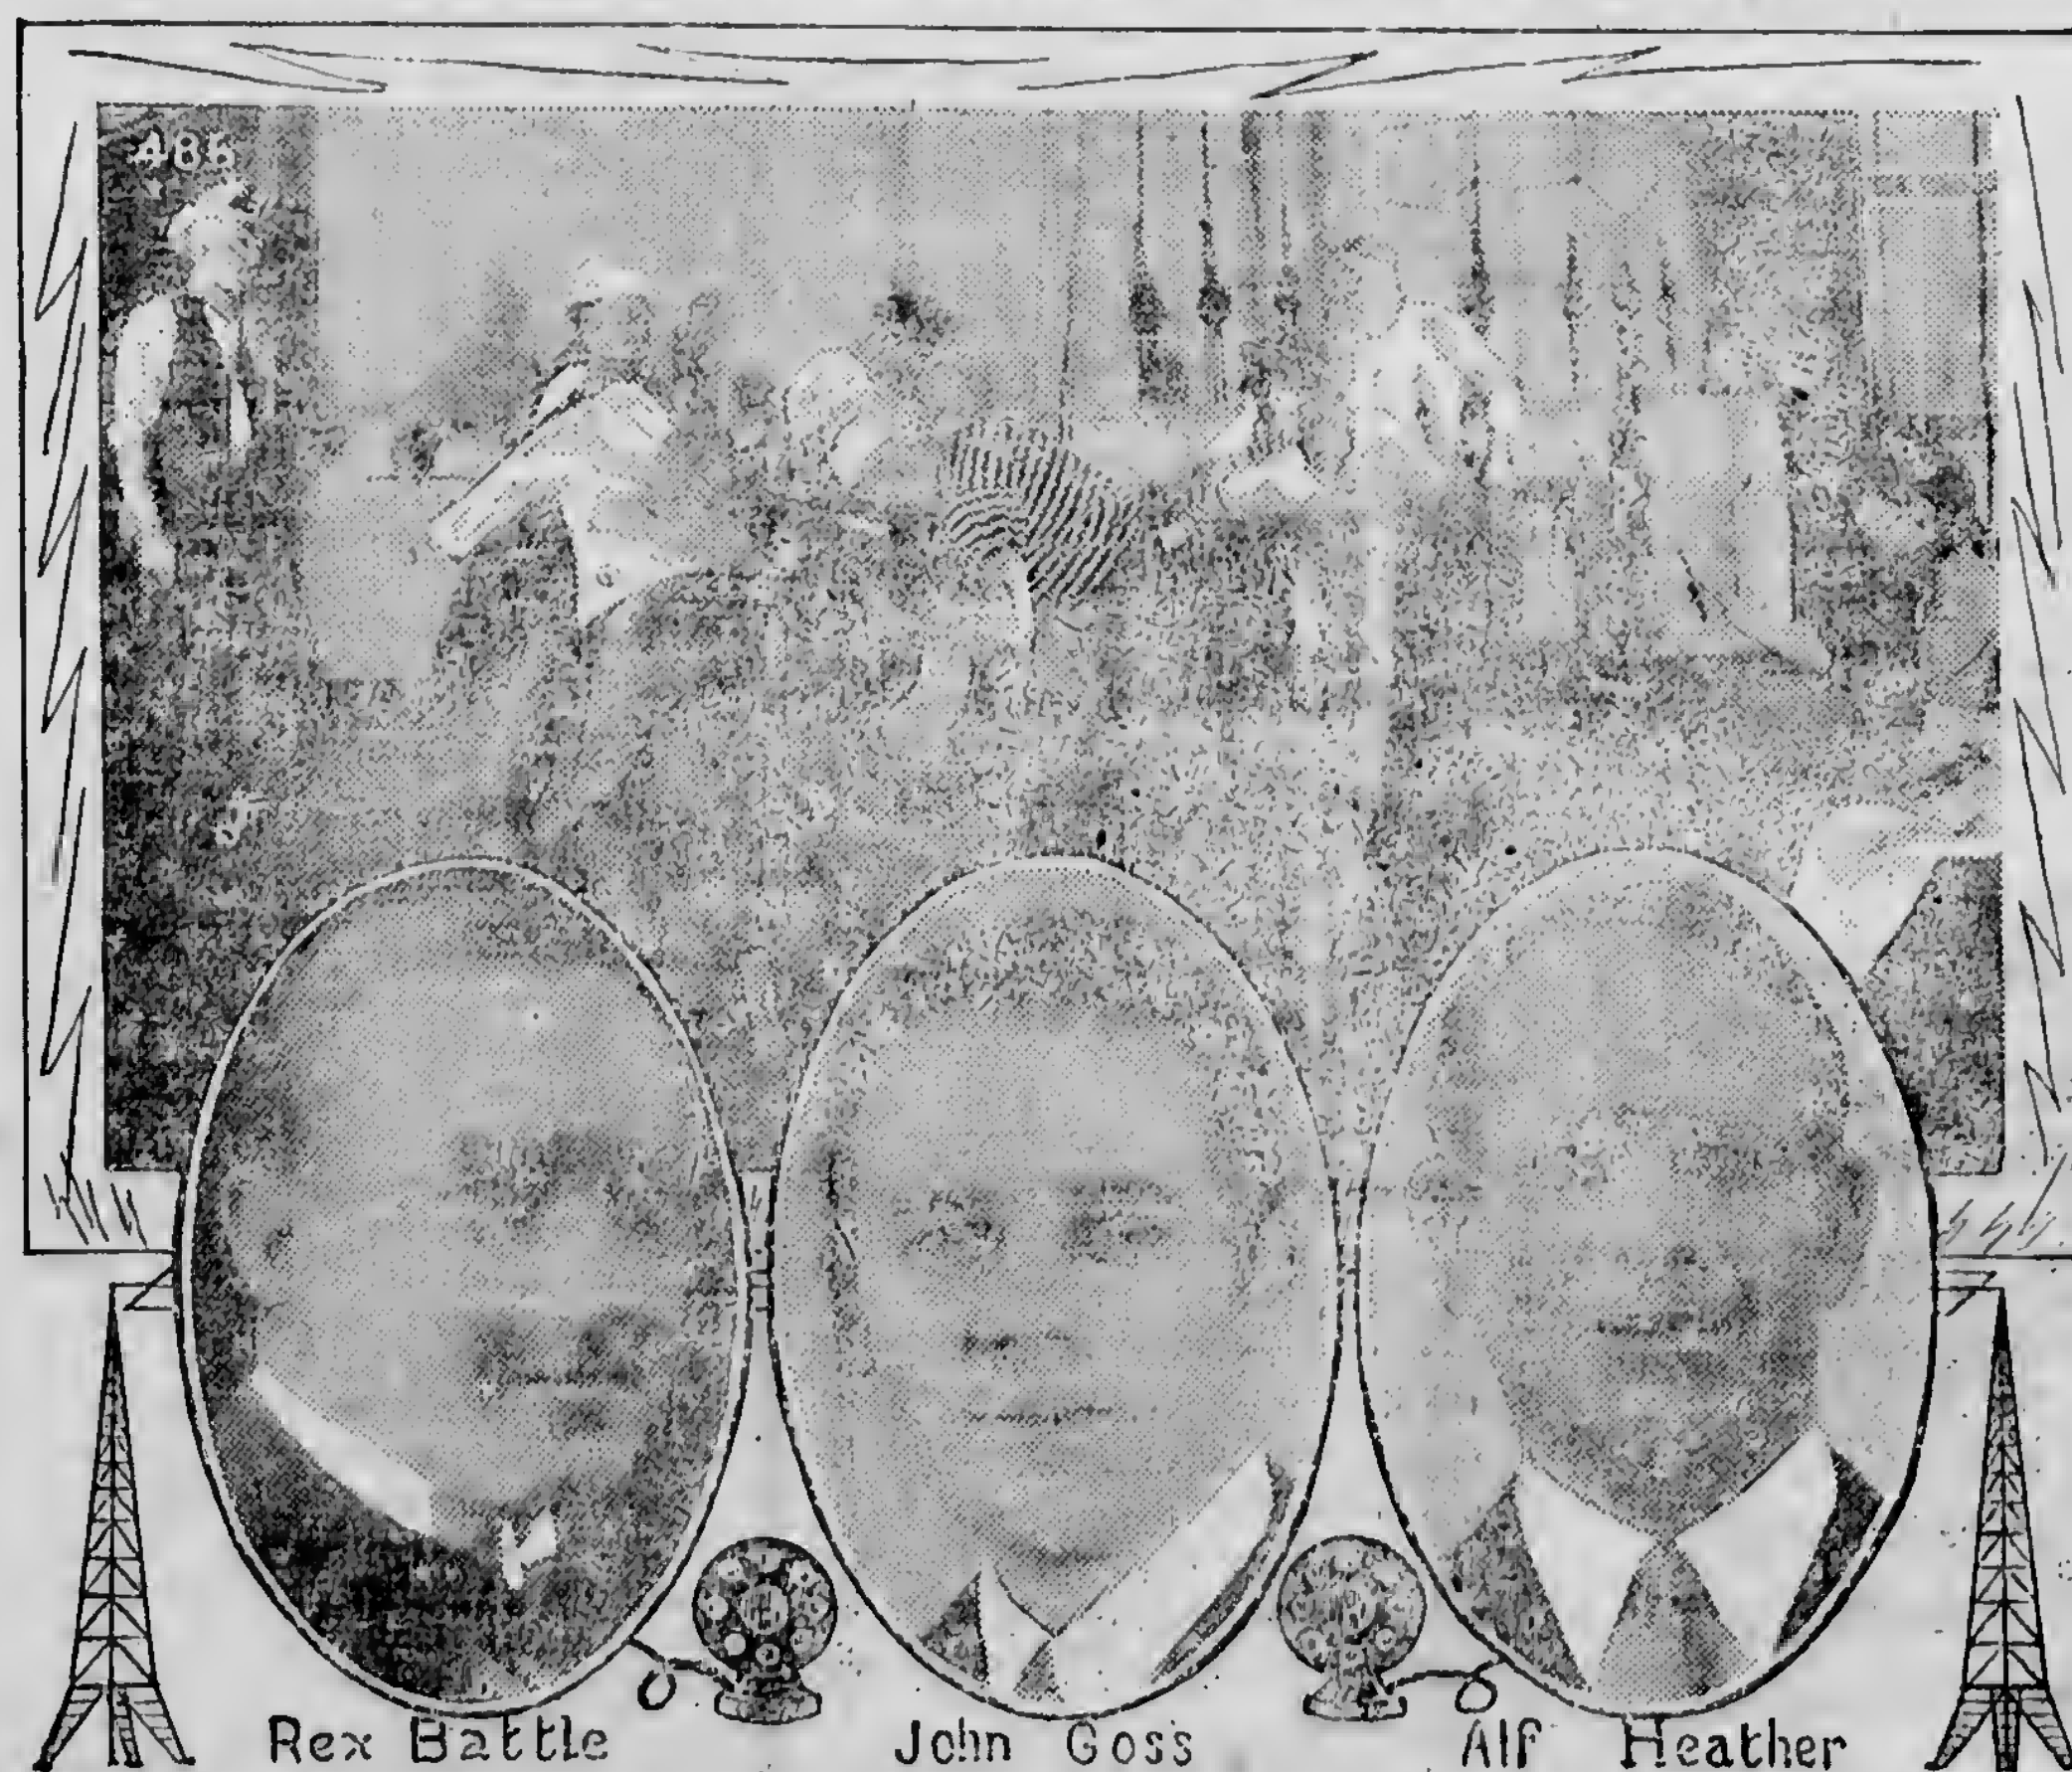

With five solid weeks completed, the 1930 session of the Legislature of Alberta is drawing to a close. As the days grow longer and warmer, the rural members begin to get uneasy, and the session will probably close on or about March 21, the first day of spring. The week just passed has seen the practical passing of the Wheat Pool Guarantee Bill and the completion of the Estimates. Before prorogation four matters remain: Redistricution, the new School Act, the Mines Act, and the final stages of the Security Frauds Prevention Act. Whether it will be prorogation or dissolution has not yet been announced but those who think they know say that there will be no election this summer.

The Wheat Pool Guarantee Bill passed its second reading on Monday went through Committee of the Whole House on Tuesday, and now awaits only the formalities of third reading and royal assent. The second reading brought out strong Liberal and Conservative criticism of minor points and of the Premier's methods, though they agreed with the principle and voted for the bill. J. T. Shaw, Dow Valley, the Liberal Leader, said that though he would not oppose the bill the government must accept entire responsibility and full blame in case of disaster because the Premier had not given out enough information. In the other provinces the opposition leaders had been called into conference by the premiers. Further, the Bill did not prevent the Pool from making fresh advances to members or from securing further bank loans. Col. C. Y. Weaver, Con., Edmonton charged that the Pool had departed from the principle of orderly market ing by buying wheat and by buying it in options. He wanted a time limit set to the guarantee. D. M. Duggan the Conservative leader, declared his sympathy with the pool movement. He had been chairman of the first pool meeting held in Edmonton. For all his sympathy he didn't care to have a blank check to the Wheat Pool. Further, he thought that the 45 per cent of the farmers who did not belong should get some benefit from the government support. W. H. Shield, U. F. A., Macleod, in reply, declared that the non-pool farmer would soon suffer if the Pool should fail. He suggested that since a Liberal-Progressive Premier in Manitoba a Conservative Premier in Saskatchewan, and a Farmer Premier here were satisfied, their judgment should be good enough for the opposition. Mr. Brownlee then dealt fully with all objections. He had given to ALL the members of the House information which could be of value to the business rivals of the Pool, that is: the amount of sales already made, the amount of wheat held by the Pool, and his purchases of the Pool made to stabilize prices. He expressed his belief that the Pool had done right in buying wheat to prevent the price going out of sight. Business men had expressed their satisfaction to him in this backing the Pool. The second reading passed unanimously.

The adjourned debate on the motion of D. M. Duggan, Con., Edmonton, calling for the abolition of the Alberta Provincial Police and their replacement by the Royal Canadian Mounted Police was then resumed by Mr. Lymburn, the Attorney-General. He outlined the work of the present force: moving that they are much more than mere police. Money saved by the change, and he wasn't convinced on that, would be eaten up in hiring inspectors and game guards. It was well, too, to have the police under the direct control of the provincial government. He concluded with a strong appeal to the House to back up the police if they wished to have an efficient force. Geo. Webster, Lib., Calgary, thought they should be called the Alberta Prevention Police if they did all that Mr. Lymburn said they did. He emphasized the considerable saving that would accrue by the change. Col. Weaver, Con., Edmonton, showed that there was no danger of "remote control" for in Saskatchewan the R.C.M.P. took orders directly from the Attorney-General. M. C. McKeen, U. F. A., Lac St. Anne took the attitude that only the rural members really understand the situation and apparently none of them wanted a change. Sam Browne, U. F. A., High River, pointed out that a new A. P. P. might have to be rebuilt if at the end of seven years a satisfactory renewal agreement could not be made with the Federal government. J. T. Shaw, using R. C. M. P. reports and Saskatchewan estimates built up a strong case by showing that the R. C. M. P. carried out provincial statutes there. The leaders of the government seemed a little worried though not convinced. The whole question hinged on the extra work done by the A. P. P.: it does more than merely arrest people who have broken laws. The Conservatives were not satisfied with the "Ayes" and "Nays." The Speaker then rang the division bell and after the sands had run through the hourglass the required number of times, the Clerk of the House called the roll. The Conservatives and the Liberals, except J. W. Frame, Athabasca, favored the change, but government and Labor united to defeat the motion.

First reading was given a bill to establish a Department of Natural Resources and second reading to the Security Frauds Prevention Bill. The Bill was opposed by the lawyers, Shaw and Weaver, as giving too much power to the Attorney-General and to the Executive Council. The Council should not be able to make a man a criminal by a mere regulation, according to Col. Weaver. The discussion of the estimates for the Executive Council gave Mr. Webster, Liberal member for Calgary, another chance to attack Mr. Greenfield and the London office, which requires a vote of \$18,265 to support it. Mr. Brownlee rose to the defence declaring that Mr. Greenfield had done much to aid the development of Turner Valley by securing technical advice and capital in England. When the estimate for \$106,652 for the support of the labor bureau came up, the member for Innisfail, Donald Cameron, took the opportunity to attack the policy whereby Central European immigrants were being dumped in Edmonton at this very time. He blamed the low railway rate from the east coast to Edmonton (\$33) for this state of affairs and appealed to the government to take some action. An investigation into the activities of the Alberta Co-operative Credit Societies Act initiated by Geo. Webster of Calgary, shows a considerable amount outstanding. Particular attention was called to a loan of \$45,000 to the Donatville Society consisting of 25 Hungarians. They had bought lands, implements, and cattle, at excessive prices and all but 7 had been forced to quit. The government hopes to recover from the man who put over the deal. A supervisor at \$4,300 will replace the man at \$2,000 a year who did all the lending. Red Thursday was duly observed in Edmonton by a Communist march on the Legislative building. Gathering at the north entrance of the building they were prevented from entering by the police. After inflammatory speeches in English and Russian, they departed. So quiet was the demonstration that the members in the Legislative Chamber at the south end of the building were unaware of the disturbance. It was not until the parade had moved off that the Labor members came running down the main staircase, just too late. A conference between government and municipalities will be held to consider extending Mother's Allowances to mothers whose husbands are sick. Thus men suffering from T. B. may get a chance to recover. The mover, F. J. White, estimated the cost at \$70,000 a year.

C. P. R. ENTERS BROADCAST FIELD

A series of radio broadcasts has been inaugurated by the Canadian Pacific Railway every Friday night from 10 to 11 over CKAC in Montreal and CKGW in Toronto with possibility of extension to other major Canadian cities in the near future. The basis of the programme has been organized under the baton of Rex Battle, whose work as the director of concert orchestras in Montreal and latterly at the Royal York, Toronto, has won him great popularity. A small opera company has been organized for the production of light ballad operas such as have featured the Canadian Pacific Music Festivals at Toronto, Winnipeg, Regina, Vancouver and Victoria, and these will be given under the direction of Alfred Heather, well-known character actor and impresario. Ballad operas in French produced at the Quebec Festival, together with French-Canadian folk songs, will be produced under the direction of Charles Marchand, popular folksinger. The larger illustration shows a scene from the ballad, "Bound for the Rio Grande," with inset of John Goss, who will star in the radio production. The other insets are of Rex Battle, leader of the orchestra, and Alfred Heather, character actor and producer of the ballad operas to be broadcast.

"THE SEEDING TIME"

Following the great deluge when the Lord put the bow in the sky and issued the edict that there should be seed time and harvest time each year in their proper sequence, man began to till the soil and endeavor to acquaint himself with nature so he could pursue the agricultural and pastoral labors in safety, and with a comparative degree of assurance of return.

Today, at least 4,000 years later, the seasons continue to come and go and right now we are on the threshold of another "seed time," when because of faith in the word of Jehovah the sower goes forth to sow, leaving the outcome in the hands of Him who doeth all things well.

As husbandmen of the soil, are we doing our part as well as we know how so that it will follow, if we have an ordinary season, that we will get a good crop, or are we "scratching" the soil, and using a lot of "shotgun" methods, on land in such condition that nothing short of a season full of extraordinary weather conditions could bring us a crop.

More and more pronounced each year is the line that divides profitable and unprofitable agriculture, and more often than not, we must analyze the methods of the two classes to determine the cause of outstanding success on the one hand, and dismal failure accompanied with discouragement on the other.

Some reasons are plain to everyone. Today we have some farmers who are still huddling. Their harnesses and machinery have not been overhauled, their seed grain has not been cleaned, their implements are scattered all over their farms and their neighbors, and when the warm sun is shining and they should be busy working their summerfallow and seeding it, they will be making a "grand rush," planting dirty seed, using harness that has barbed-wire tugs and connections, and machinery that wastes very valuable hours while being repaired. We do not pretend to make it our business as to what people do with their time, but when the problem of making agriculture profitable is such a serious one, and the cost of production is steadily mounting, it hardly seems consistent that so much time should be thrown away, and then these same farmers criticize the country because they fail to get big crops each year.

That we are always ready to gamble against the weather is proven year after year in the "stubbing in" of grain crops, and summerfallow that fairly "reeks with wild oats."

Why can't some of us "right about face" and give the country a break. Instead of us always wanting the break and cursing the country because we don't get it. The old slipshod methods were alright twenty years ago when our taxes were low the productivity of the soil high and no automobiles to pay for and keep going. Today things have changed. Taxes are going up and up, our living conditions are on a higher level, and if we succeed we must change with the times and make farming a business instead of a "pastime."

Mrs. R. F. Ross, Mr. Harvey Ross, Miss Phyllis Ross and Mr. and Mrs. Roscoe Herlit all of Warner were dinner guests of Mr. and Mrs. J. Aaron Ross on Friday.

Dominion of Canada

AUCTION SALE OF SCHOOL LANDS

PUBLIC NOTICE is hereby given that an Auction Sale of School Lands will be held in the Province of Alberta, at the place and on the date hereafter mentioned:

LEATHERIDGE — Tuesday, March 25th, 1930, at 9 o'clock A. M.

The lands to be offered comprise only those which have reverted to the Crown owing to cancellation of former sales and which have been reinspected and valued at \$7.00 or more per acre.

The lands will be disposed of subject to the usual terms and conditions pertaining to the sale of School lands at public auction.

Where any parcels of land are not sold the cultivation privileges for the year 1930 will be offered at time of sale and disposed of to the highest bidder, in accordance with the terms and conditions which will be announced at time of sale.

TERMS OF PAYMENT

One-tenth in cash at time of sale, and the balance in eighteen, equal annual instalments with interest at the rate of six per cent per annum on the balance of the purchase money from time to time remaining unpaid except in cases where the area of the land sold does not exceed forty acres in which cases the terms of payment shall be one-fifth in cash and the balance in four equal annual instalments, with interest at the rate of six per cent per annum; overdue payments, whether of principal or interest, to bear interest at the rate of seven per cent per annum.

For Sales boundaries, other places at which sales will be held, and for further particulars see posters posted in post offices, or apply to the Agent of Dominion Lands for district.

Lists of lands to be offered may be had on application to the Commissioner of Dominion Lands, Department of the Interior, Ottawa, Ontario, or to any agent or sub-agent of Dominion Lands in the Province of Alberta.

By Order,

J. W. Martin,
Commissioner of Dominion Lands,
Department of the Interior,
Ottawa, 1930.

Roscoe Larson is around again following a long spell of sickness.

Mr. and Mrs. S. B. Card returned home Saturday evening from their trip to the Pacific States.

Magistrate J. W. Low was here on official business, Tuesday.

Dr. and Mrs. D. B. Fowler, Magistrate, were here Monday evening to see "Showboat."

The High School team left Thursday morning for Edmonton to play the High School Basketball finals. Ken Stone went with them as referee.

Notes from the A.C.

The School is now preparing for closing, which is only two weeks away; March 26th being the date chosen.

Dean E. A. Howes, from the University of Alberta will be the speaker at the evening, and it is expected that the Assembly Hall will be filled to capacity.

Last Friday evening the Literary Association held their Annual Banquet in the Assembly Hall of the school. This was a real success and demonstrated that the Domestic Science Department and the Public Speaking Department are able to turn out capable trained students.

The second year boys accompanied by Mr. Asplund and Mr. Acheson were guests at the McIntyre ranch last Saturday. A very good time was had and all are enthusiastic over the hospitality and kindness by which they were received.

At the dinner banquet at the Marquis Hotel last Saturday evening, under the auspices of the Canadian Association of Engineers, was noticed: Principal, O. S. Longman, Wesley Smith, T. C. McBeath, S. C. Acheson, and K. Walker.

We are very pleased to report that Matsuyo Takahashi has been discharged from the hospital, and is again back in Raymond. We are expecting her at the R. S. A. shortly.

Next Saturday evening the Athletic Association are holding a St. Patrick's dance in the school auditorium. The hall will be decorated for the occasion which means something—under the direction of W. Smith.

T. C. McBeath made a record trip Monday noon, spent Tuesday in Edmonton this week. Mac left Ray Edmonton, and was back at Raymond for lunch on Wednesday.

Mr. H. L. Seymour, Provincial Town Planner will be a guest at the school on Thursday afternoon, and will speak in the Assembly Hall, at 3 o'clock. Everyone is cordially invited to attend.

Mrs. Frank Nye, Instructress in millinery finished her course last week, and returned on the Saturday morning train to her home in Edmonton.

Next Wednesday afternoon (March 19th) the school will hold its annual exhibition to the public. This is usually a very fine demonstration, and actually depicts what the young people of the school are doing. Last year over 250 guests were present, and this year many more are expected.

The girls of the first and second years will put on a dress parade in conjunction with the annual exhibition held next Wednesday afternoon. This parade will start promptly at 3 o'clock. Parents and friends are cordially invited.

News Notes

We have had a lovely storm. We are waiting for the grouches to tell us what was wrong with it.

The funeral of Mrs. P. J. Christenson will be held on Sunday Mar. 16, at 2 o'clock p.m.

Mr. McRae of the Mid West Paper Sales, Ltd., Calgary, was a Raymond visitor on Wednesday of this week.

Quite a number of local fans were in Cardston for the Boxing Eliminations Wednesday night.

Chas. Fawns is still under the weather, following his tonsillitis operation of a couple of weeks ago.

Don't forget the Junior Prom at the High School Gym. on Saturday night, March 22. Canadian Kids.

Primary Ward Conference was held Sunday evening in the First Ward when the children entertained with Primary exercises, dances and songs, much to the enjoyment of the audience.

BATTER UP

A meeting of all interested in Baseball both layers and fans, is called for Sunday, March 16, in the Town Hall at 3 p.m.

At this meeting a Manager and other officers will be elected and the baseball situation discussed.

Come with your ideas and help put the game over this year better than ever.

Prospects for a good Baseball season were never better and all we need is a good early start. Lets Go.

BEAUTIFUL NEW FORD BODIES NOW ON DISPLAY

KING MOTORS

Born on March 1st, a daughter to Mr. and Mrs. W. W. Rodeback, at the home of Mrs. E. M. Stevenson. Mother and babe are doing nicely.

The announcement and Prize List of the World's Grain Exhibition and Conference, to be at Regina in 1932 is to hand and shows a great range of prizes and premiums to be won.

A very enjoyable birthday party was held at the home of Mr. and Mrs. W. A. Keith on Monday, March 10th in honor of their daughter, Elaine, who was 6 years old that day. About nineteen guests were present and thoroughly enjoyed themselves in games and a fish pond. Refreshments were also served. Those present were: Phyllis and Norma Redd, June Mny, Norma Litchfield, Adabelle Bascom, Helen Blackmore, Louise Allen, Lorna Low, Wallace Lee, Glen Lee, Grant Bascom, June, Elaine, Meric, Kolleen, and Noel Keith, Lillian McBride, Mildred McBride, and Sylvia Aldridge who helped with the games.

FASCINATING LINKS

Ottawa, March 12, (Special to the Recorder)—Lord Willingdon Governor General of Canada, made a presentation last week to the Dominion Archives of a small bag of wheat, containing about a pound of excellent grain, which had been sent him by the Hudson Bay Company. The bag was marked No. 1, so it is judged that Lord Willingdon was the first to receive a sample of the wheat. At the same time the Dominion Archives received a sample pound marked 14.

The letter which accompanied the portion which was sent the Dominion Archives is of interest to Canadians at the present time, and will be interesting history for generations to come. The letter reads:

London, Jan 3rd, 1930

Dr. A. G. Doughty,

Dominion Archives, Ottawa,

Dear Sir: We have pleasure in sending for your acceptance a sample of Canadian wheat 1929 crop being part of the first shipment by the new route from the Prairies via Hudson Bay to the United States Kingdom.

This shipment, prepared by Messrs. James Richardson and Sons, Ltd., of Winnipeg, was made possible by the courtesy of Hon. Charles Dunning, Canadian Minister of Railways, who kindly gave facilities for the use of the temporary rails as soon as they were laid to Churchill in the month of Sept. The permanent way, the terminal works, the docks and grain elevators are in course of construction and will all be ready for operation when the harbor works are completed in 1931.

This event will open a new chapter in the history of Churchill so named in 1888 in honor of John Churchill, the first Duke of Marlborough and governor of Hudson Bay Company from 1680 to 1691. The selection of this port as the terminus of the railway adds interest to the following extracts from the Company's record.

London Minute Book, 13th October 1686: "Captain Abraham, late Governor at Port Nelson, came before ye committee acquainting yem of his proceedings yere and how he did ye last Spring say 50 Leagues northward of Port Nelson and discovered there a faire river. Ordered he bring in writinge the said discovery."

London Minute Book, 8th February 1688: "This committee does resolve and agree as followeth: That Churchill River be Settled this yeare with a good shippe a competent cargoe for Trade and Materials for White Whale fishings."

Churchill Report of Chief Factor, Thomas Staynes, 1797: "The harbour of Churchill is the finest in the bay, for the ship, and where her cargoes could be the soonest discharged."

Yours faithfully,
Charles V. Sale, Governor.

U. F. W. A. DIRECTOR VISITS RAYMOND

Mrs. Marie Malloy, U. F. W. A. Director for the Lethbridge District was the speaker at the regular meeting of the Association, Thursday March 6. The meeting was held at the home of Mrs. Emma Neilson, after opening with community singing, and passing on routine business the balance of the time was turned over to Mrs. Malloy who gave a splendid address on the accomplishments and ideals of U. F. W. A. work. Mrs. Malloy dwelt briefly on the birth of the farm Women's movement, stating how it had been formed by the few women who had husbands and from the date of its organization in 1914 until the present time it had grown in numbers and scope. Convenors were appointed in the field of legislation, immigration, education, health, social welfare, peace and arbitration and cooperative marketing. The speaker said that if the new School Act was never passed it had set the people of this province to thinking about educational matters until they realized that the present system was outgrown and a more vital system should be adopted. She dwelt on the provincial provisions and of the greater necessity for such institutions.

She told of the work that had been accomplished by the convenors of health, the various bills they had sponsored until they became acts of law. And that they were now working on legislation that would provide for government owned hospitals. She said we have roads paid for by the government education paid for by the government, so why not hospitals?

The Farm Women's Association has been responsible for reforms to the mother's allowance act, for equalization of divorce rights of man and woman joint ownership of property accumulated after marriage. The present convener of legislation has done a great deal for the Alberta farm women in the making of wills and executing of the same. Mrs. Malloy stated that the extent of the women's work for immigration was of too vast a scope to more than touch on in one address regarding world peace she urged the women to educate their children for it was thru them that world peace would eventually come. She closed by saying that the U.F.A. and the U.F.W.A. was needed now as never before and urged the local members to greater effort in increasing the membership and accomplishing the ideals which the organization fosters.

Mrs. Etta Frandsen of Warner, accompanied Mrs. Malloy, she also spoke for a few minutes.

Musical numbers were furnished by Mrs. O. H. Snow, Miss Velma Nalder and Miss Mildred Neilson. At the close of the meeting refreshments were served, the assisting hostesses being Mrs. R. A. Nalder, Mrs. Alice Larsen, Mrs. Mable Henninger and Mrs. Relva Booth Ross.

The next meeting will be held at the home of Mrs. June Allred on April 3rd.

The shipping tag which accompanies the bag contains an interesting note and reads: "For over 250 years the vessels of the Hudson Bay Company have made their annual voyages from Great Britain to the shores of the Hudson Bay."

The construction of a new railway to the interior opens a new era in transportation to and from the prairie Provinces and to mark this event the Hudson Bay Company have transported this wheat from Winnipeg on the temporary rails of the Hudson Bay Company (by the courtesy of Hon. Charles Dunning, Minister of Railways, to Churchill, thence overseas to Liverpool where it was landed by the Company's steamship Neacople on the 10th of October, 1929.

at the Opera House next Thursday
night. It is a comedy of real worth
so get your tickets now and be pre-
pared.

TO WHOM IT MAY CONCERN

NOTICE IS HEREBY GIVEN that
the Mayor and Municipal Council of
the Town of Raymond propose pass-
ing a By-law authorizing the Closing
of the Alley running East and West
between Lot 11, Block 2, Plan 20391,
and Lot 1, Plan 5154 K, and extend-
ing to a point One Hundred and Thirty
feet west of Broadway Street.

Any person or persons having ob-
jections to the closing of the said
Alley shall file objections with the
Secretary-Treas. of the said Town,
at the Town Office on or before the
Thirteenth day of March, A. D. 1930.
DATED at the Town of Raymond,
in the Province of Alberta, this 24th
day of February, A. D. 1930.

O. H. SNOW,
Sec.-Treas.

TAKE NOTICE

CASH BIDS will be received by the
undersigned, up to noon on March 13,
1930, for the purchase of above lane.
The highest or any bid not necessar-
ily accepted.

PERCY W. COPE,

Mayor, dated by the audience.

News Notes

J. E. Clarke was in Lethbridge on
Saturday last week.

Marbles and baseball are coming
in for their "day" at the school now.
Wind or sun sees the youngsters tak-
ing part in one game or the other.

Farmers are getting already now to
commence spring work, and it looks
like spring work will start almost
any day now.

The acreage sign up for sugar beets
is well under way, and Superinten-
dent Taylor informs us that the ob-
jective is 13,500 acres this year, with
good prospects of realizing this aim.

Real estate was moving fast the
first part of the week. We wonder
which was the best, the land that
left us and went east, or that which
we received, in indefinite amounts
from the west.

SOUTH AFRICA AS I SAW IT

Last Tuesday evening a very splen-
did lecture was heard in the Ray-
mond United Church. Rev. Mr. Stev-
enson, the pastor in charge, gave the
lecture on "South Africa as I Saw
It."

Mr. Stevenson spent several years
as a missionary in this country and
his information was first hand.

The speaker first opened his ad-
dress by giving a little entertain-
ment for the young people in the
Kaffir language; then he proceeded
with a description of the people, their
customs, and his impressions of the
country.

Mr. Stevenson had a Kaffir choir in
attendance, (in reality, they by their
appearance belonged to several trib-
es). The choir gave several negro
numbers, which were greatly appre-
ciated by the audience.

Thanks For Things
As They Are
By CLARA HOPPER

I went C.P.R.-ing
Over the prairie
Where flat things are flatter
Than ordinary,
Far things are farther,
Near things nearer,
High things higher,
Sere things sere.
Earth, a shorn sphere,
Went wheeling and whirling,
Twisting and twirling
Around to the rear;

Ethereal seas! how the old, wild breeze,

Fain, famished for trees,
Shrieked in seventeen keys!
Till I feared we'd be hurled
To some five-pointed world.
But the wind fell asleep
As the sky fell aflame;
And my fears fell away,
And the Past filled a frame...

I saw the lean Indian
Trudging and trailing...
I heard the dry River carts
Screeching and wailing...
I gave thanks I live now!
And here!—and how!—
And not on a star's
Far's
Mars,
Where they've no C.P.R.'s!

STRAW FOREST GIVE NEW VALUE TO WHEAT FIELDS

MILLIONS OF TONS OF WHAT WAS ONCE WASTE NOW MADE INTO WALLBOARD

(From Christian Science Monitor)
St. Joseph, Mo.—Farmers are growing "lumber" in the great wheat fields of Kansas and Missouri. The same sunshine that produces the wheat, breeds in the golden straw a composition that, it has been discovered, makes wallboard. Thus a "waste product" has been made useful and a new source of revenue provided for the farmer.

A factory at South St. Joseph is busily converting straw into an insulating wallboard, capable of keeping the cold blasts of the winter months and the heat of summer out of the American home. The secret process used is the latest contribution of natural science to the art of home building.

There is no shortage of raw materials. Every year a "forest" of straw grows in the wheat fields, stretching mile after mile in all directions in this prairie country. Gathered in bales, the straw may be sold to the wallboard manufacturer—a step toward greater prosperity in the "wheat belt."

Straw's high resistance of changes of temperature has been known for centuries, and it has been used extensively in some parts of the world, finding its way into structures ranging from cattle sheds to thatched homes. Its use was curtailed by its bulkiness and by the fire hazard it represented. Both these faults have been overcome in the wallboard, it is claimed, while the virtues have been preserved and possibly accentuated.

It was three years ago that A. D. Stewart moved from Hutchinson, Kan., to St. Joseph, and brought with him the idea of putting the new-found process into practical use. Straw was available in unlimited quantities and capital to finance the undertaking was provided. A building was erected and the work of perfecting the product carried on.

Tests were made in the laboratories of the Armour Institute of Technology, Chicago, before the wallboard was placed on the market. The laboratories are under the direction of Dr. Sidney D. Wells, for many years with the pulp-testing laboratory of the Federal Government at Madison, Wis.

The board is usually four feet wide and seven-eighths of an inch thick, cut in stock lengths of six, seven, eight, and a half, nine, ten and twelve feet. It is claimed that a piece of "straw" wallboard one inch thick has the same insulating value as a piece of wood three inches thick, plaster board four inches thick, plaster eight inches thick, a brick wall 12 inches thick, or a concrete wall 25 inches thick.

The straw is piled in great tiers in the open, near a pond containing more than 1,000,000 gallons of water always kept available as a fire protection measure. The factory uses 20,000 tons of straw annually and produces about 40,000,000 square feet of wallboard.

The straw is purchased from farmers, either directly in the stack, or baled. Straw delivered in St. Joseph, baled, brings about \$7.50 a ton. If baled by the farmer, the straw brings him a net profit of about \$4 an acre. It is estimated, this figure including his labor, however. When straw is purchased in the stack, with no labor on the part of the farmer, usually \$1 a ton is paid. Straw is purchased from as far away as Dodge City, Kan., and it has been estimated that it can be bought profitably within a radius of 250 or 300 miles if reasonably good transportation is available.—Lethbridge Herald.

Miss Gertie Dahl is now clerking at the Raymond Mercantile, taking the place of Miss Mary Redd, who is in Los Angeles, Cal.

Harry Fairbanks took his Scouts on a hike Saturday, and while away a number of the boys passed some of their tests.
